

myWorkNest Compliance

ISO certification, made simple.

Expert-led, AI-assisted.

Compliance

One platform. One consultant. One home for ISO certification.

ISO certification is one of the most powerful ways to win contracts, build client trust, and demonstrate operational excellence. Yet for most businesses, the journey has been fragmented, complex, and heavily manual while clients juggle emails, spreadsheets, printed manuals and disconnected consultants with no single view of where they stand or what comes next.

myWorkNest Compliance changes this entirely. It combines IMSM's 30 years of consultancy expertise with a modern AI-powered platform, giving clients total visibility, AI speed, and the reassurance of a named, ISO specialist consultant at every step.

Consultancy Expertise

Your consultant guides you at every stage. 30 years of real-world ISO experience is built into every workflow, document, and process in the platform.

Intuitive Platform

Real-time dashboards, document control, audit scheduling, and AI supported gap analysis in one place. No more scattered files, email chains, or printed manuals.

Expert-Led. AI-Assisted

AI supports the process, while your consultant remains at the heart of your certification journey. Every AI-generated analysis is reviewed and validated before it reaches you, giving you faster answers with the reassurance of expert support.

Everything you need for a simple ISO journey.

Live ISO Readiness Score

Always know how prepared you are. A real-time score tracks your compliance position so there are no surprises when your auditor walks in.

Expert-Led Gap Analysis. AI-Assisted.

AI assists your consultant in delivering a structured and comprehensive gap analysis more efficiently. Every result is reviewed and validated before it is shared with you.

Centralised Document Library

Policies, procedures, and audit records in one version-controlled hub. Audit-ready at all times, accessible by your whole team.

Audit Scheduler and Reminder System

Internal audits and surveillance visits are planned, not panicked. Built-in reminders ensure nothing slips between certification cycles.

Guided 10-Step Journey

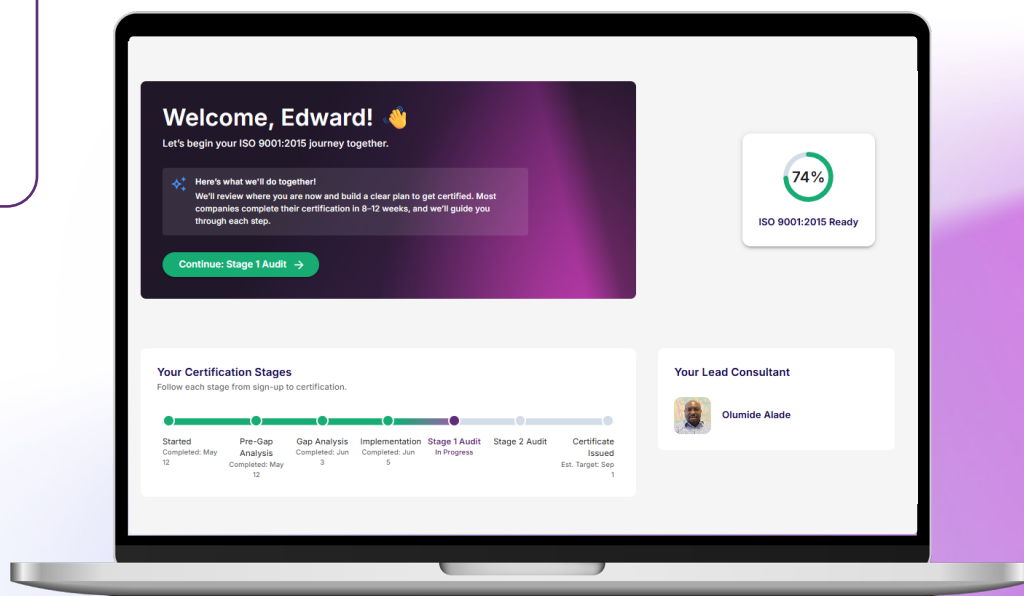

A structured, end-to-end path from gap analysis through implementation, audit preparation, certification, and ongoing compliance management.

Standards Navigator

Once certified, the platform identifies adjacent standards relevant to your business - turning compliance into a long-term growth strategy.

Board-Ready Reporting

Executive dashboards and audit summaries generated automatically, giving leadership instant clarity on compliance position without needing to understand ISO.

From day one to certified and beyond.

1 ● Onboard

Your consultant is assigned, and goals, scope, and timeline agreed within the platform from day one.

2 ● Gap Analysis

AI-powered analysis identifies priority areas against your target standard. Your consultant reviews every output before it reaches you.

3 ● Implement

Build your Management System, policies, and procedures the support of your dedicated consultant, guiding you through every step of the process within the platform.

4 ● Audit Preparation

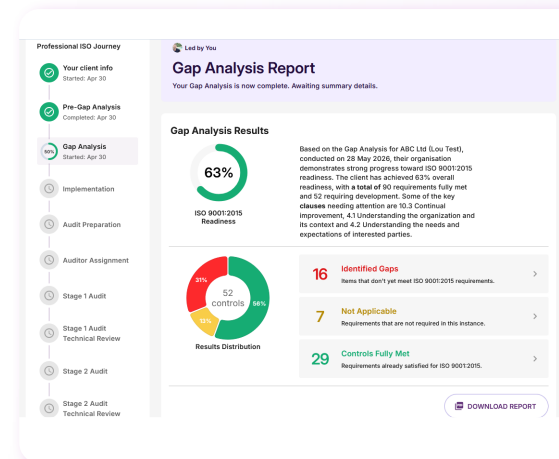

Internal audits, corrective actions, and a live Readiness Score give you full confidence before your certification audit.

5 ● Certify

External audit by our partner company QAS International or your chosen certification body. Results and certificate are stored directly in the platform.

6 ● Stay Compliant

Surveillance reminders, document tracking and recertification support managed automatically. Certification becomes a permanent strength, not a recurring scramble.

The consultant and the platform, together.

myWorkNest Compliance gives you the best of both worlds: the speed and clarity of a modern platform, and the reassurance of a named IRCA or equivalent qualified consultant who knows your business and your standard.

Expert-led, not tech-only

AI accelerates the process. Your consultant leads it. Every output is reviewed and validated before it reaches you.

Audit-ready, always

A live Readiness Score means you walk into every audit knowing you are prepared, not hoping you are.

No complexity, no chaos

One platform replaces the scattered files, printed manuals, and email chains that define the traditional ISO experience.

Built on 30 years of ISO expertise

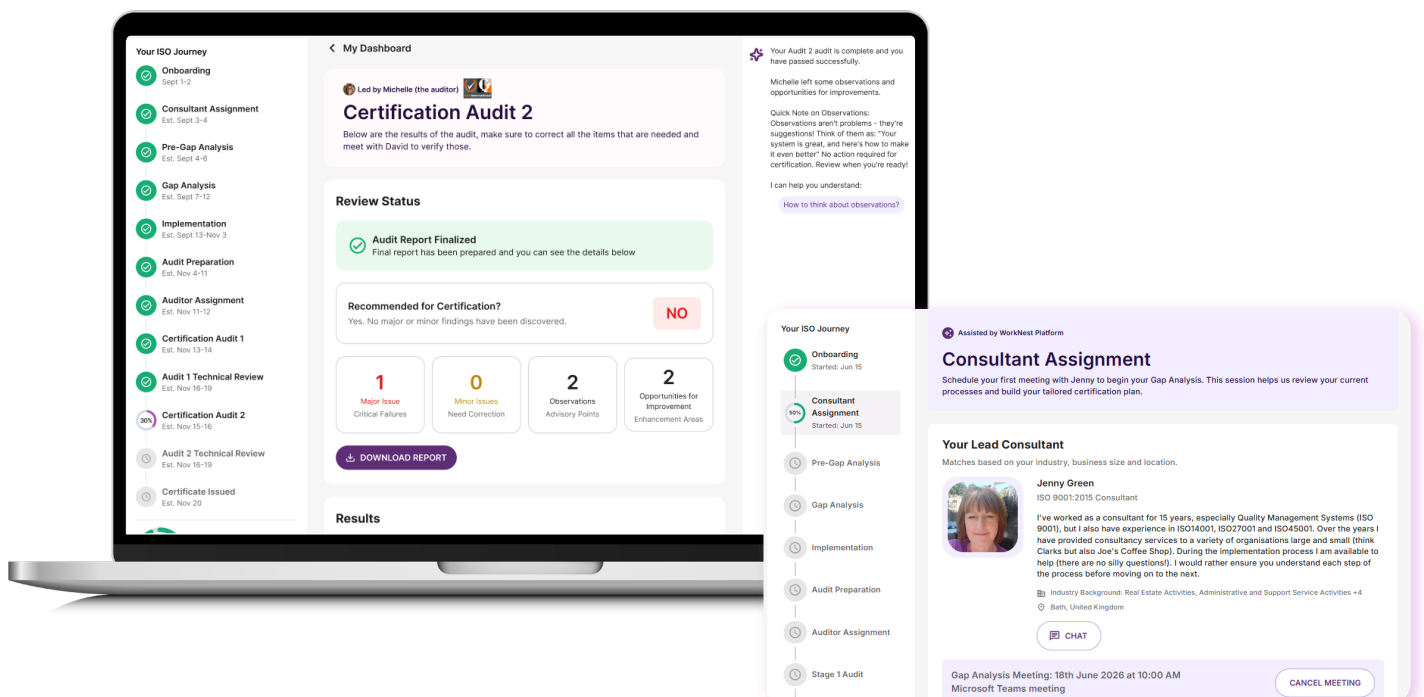

Every template, workflow, and question set is built from real certification experience across thousands of engagements, not textbook theory.

Your long-term compliance partner

Certification is the milestone. myWorkNest Compliance manages the ongoing programme so you never slip backwards.

ISO Certification Simplified for Your Business.

"Thorough, helpful and very knowledgeable organisation regarding all aspects of ISO management systems"

Jeff, GBR

"In Safe Hands with IMSM: A Confident Start to Our ISO 9001 Journey"
